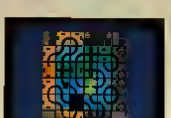
This package contains one LOCO-MOTION™ cartridge, two controller overlays and playing instructions

LOCO-MOTION™* cartridge

All aboard. You're the engineer in the main switching office of a large transit system. It's up to you to route the trains and pick up passengers waiting at the stations. You arrange the sections of track on which your train will travel — but yours is no easy task! Some passengers get restless, not and blow up stations! Others construct Crazy Trains and come chasing after you! And that's not all! Loop Sweepers crash into you and Crazy Tracks send you off in another direction! There's no telling what can happen!



Enraged passengers riot & blow up the station

Crash into a Loop Sweeper or Crazy Train & you're most certainly crushed

- For 1 or 2 players. 4 skill levels. Each time you clear the screen, you get a tougher challenge!
- Get for speed! Pick up as many passengers as possible before stations blow up or you lose your Train!
- Loop Sweepers, Crazy Trains, Crazy Tracks, plus a troubled track and a nerve-racking relief!
- Plenty of action, and lots of quick releases needed to solve problems! There's no need to the challenge!
- Accelerating crash sounds... and more!
